Note. The contracts below are examples of outreach-related funding. Each of the contracts is part of training and technical assistance efforts to Head Start programs in Michigan and the upper Midwest between 1999 and 2003. In these related contracts, my role was similar. I was responsible for hiring staff who delivered the training and technical assistance to programs, overseeing their work, holding regular team meetings and preparing annual evaluations of each staff member (this included a written evaluation and an evaluation meeting with each staff member). I also reviewed monthly expenditures on monthly budget reports and reviewed annual budgets at the beginning and end of each fiscal year. These contracts contributed to the sustained partnerships that are yielding research grants.
